AN EXPERIENCE THAT CAN CHANGE THE LIVES OF THOSE
WHO DARE TO VENTURE **BEYOND THE ORDINARY.**

WELCOME TO *Lapland*

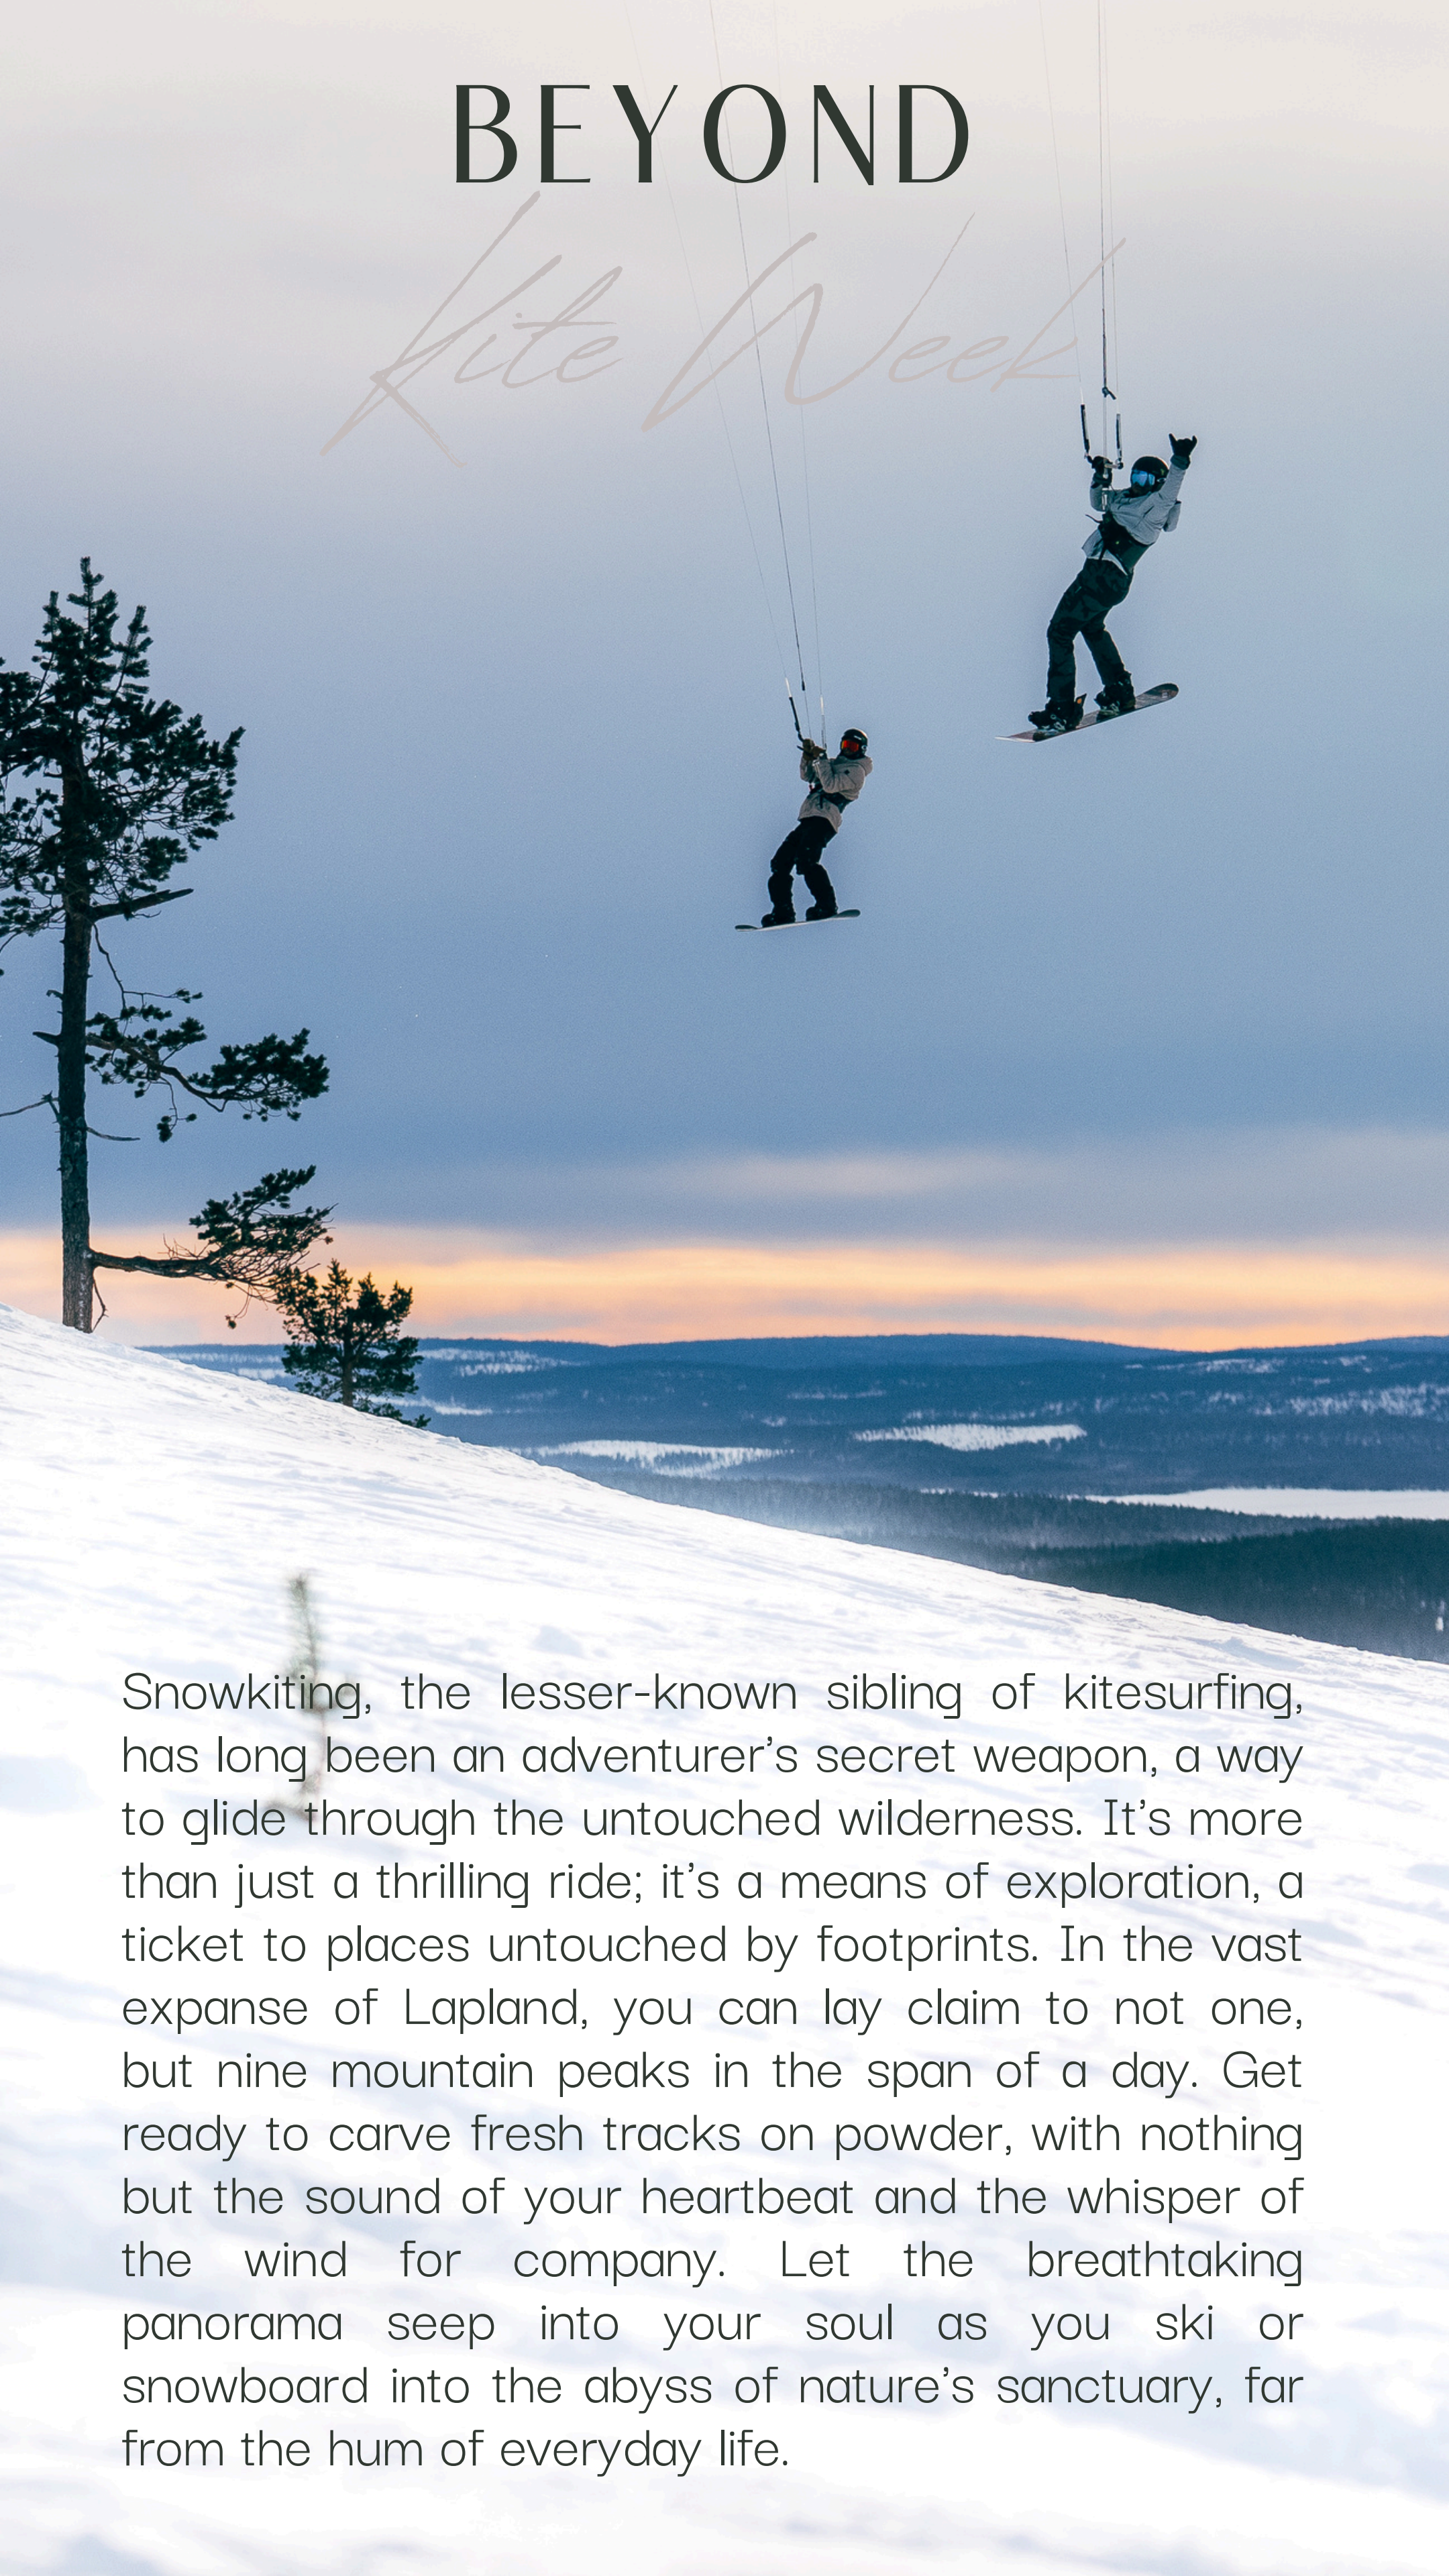

Lapland - a land far from ordinary, with stark contrasts and captivating natural wonders. Here, the Polar Night dances and paints the skies with vibrant hues, while Arctic cities nestle in the embrace of Ice Age fells.

This Beyond Snow Experience is your portal to an Arctic adventure that few can claim to have embarked upon. As we traverse the Finnish Lapland and witness how the art of snowkiting weaves seamlessly into the wilderness we leave with great memories and friends that last a lifetime.

If the icy thrill of a husky sleigh ride stirs your spirit, or the comforting warmth of a traditional sauna calls to you, then perhaps, just perhaps, you're ready to join this unforgettable trip with us!

BEYOND

Kite Week

Snowkiting, the lesser-known sibling of kitesurfing, has long been an adventurer's secret weapon, a way to glide through the untouched wilderness. It's more than just a thrilling ride; it's a means of exploration, a ticket to places untouched by footprints. In the vast expanse of Lapland, you can lay claim to not one, but nine mountain peaks in the span of a day. Get ready to carve fresh tracks on powder, with nothing but the sound of your heartbeat and the whisper of the wind for company. Let the breathtaking panorama seep into your soul as you ski or snowboard into the abyss of nature's sanctuary, far from the hum of everyday life.

NO WIND

FREQUENTLY ASKED

Questions

✓ **What are conditions like?**

Since 2013 we have had less than 5 absolute no wind days. So changes of solid conditions are very high. In case of no wind there is plenty of other things to do and see.

✓ **What kite sizes do I need?**

On a normal week of Pallas you end up using any size you have with you. We recommend bringing an 8m, 12m & 16m setup as you can choose a spot that has lighter or stronger wind.

✓ **What equipment do I need?**

Pack multiple insulating layers for warmth as temperatures can drop as low as -30°C. Bring warm gloves and woolen hats but no need for a camera as a photographer / videographer will be present for the entire journey.

✓ **When and where can I see the Northern Lights?**

Auroras are often visible in the night sky from late August until April when the sky is dark and clear. The Northern Lights can be seen anywhere in Lapaland. The Pallas hotel and surrounds one of the best places as the light pollution is very low.

DISCOVER ARTIC MAGIC

A full-page background image showing a person skydiving over a vast sea of clouds. The sky is a mix of blue and orange, suggesting sunset or sunrise. The person is in a horizontal position, wearing a red jacket and a helmet, with a red parachute visible. Several lines of the parachute are visible against the sky. The clouds are thick and layered, creating a textured, undulating surface. The bottom of the image shows a snowy, mountainous landscape.
